JUNIOR ENGINEER AT BOLLINGER+GROHMANN BRUSSELS-PARIS

Bollinger+Grohmann is an international engineering firm based in Frankfurt am Main, Germany, with branches in Paris, Vienna, Berlin, Rome, Munich, Oslo, Melbourne and Brussels. The firm specialises in structural design studies and facade design of complex projects. Bollinger+Grohmann is active in housing, public buildings, high rise buildings, art works, and bridges. Exemplary projects include EPFL with Sanaa Architects, the new Louvre in Lens and the Musée de Confluences in Lyon.

Since 2013 there is an office in Brussels in close collaboration with the Paris branch. The Brussels-Paris team is now about 30 employees, consisting of experienced project managers, junior engineers, architects, draughtsmen and administrative staff. The office handles large-scale assignments independently, not only in France but also in other countries, China, the United States, Norway and Switzerland. A number of examples of projects in Belgium are the Provinciehuis in Antwerp with Xaveer De Geyter Architects, the Labyrinth in Genk with Gijs Van Vaerenbergh, passerelle Tondo with OFFICE KGDVS, the new fire station in Dilbeek with Studio sNCDa, or the new car park in Ghent with Havan-a.

The office has a varied and qualitative portfolio, resulting from an approach based on participation from the first sketches of a project and continuous intensive consultation with the architect. Many of the projects are the result of architectural competitions won.

Function and profile

You are fascinated by and have a good understanding of the relationship between architecture and structure. Internationally challenging projects appeal to you. In concrete terms, you will work in a team with other engineers as a junior engineer. You are involved in all phases of the projects, from the competition to the construction phase.

You are eager to learn and feel like working in a young and dynamic team. You appreciate the value of a lively and creative environment and the contact with colleagues.

Offer

The Brussels office offers a position as junior engineer (civil or architectural). Bollinger+Grohmann offers you a challenging starting job with lots of variation and the possibility to realize interesting projects with internationally renowned architects.

If you are interested, please send us your CV and portfolio to Kenny Verbeeck at kverbeeck@bollinger-grohmann.be. We will be happy to discuss this opportunity with you.
